

Conners 4

Frequently asked questions

Below you will find answers to the most frequently asked questions regarding Conners 4™. As the questions span across a variety of subject areas, they have been categorized by topic to make it easier to navigate.

Administration, scoring, and reporting

Is the Conners 4 hand or computer scored?

The Conners 4 is 100% digital and offers digital scoring only. Scoring online is less prone to error than hand-scoring and takes very little time. Given the time, cost savings, and improvement to accuracy, online scoring was reported as the preferred option in market research. While hand-scoring will not be available, paper administration will still be possible by printing a paper form from Q-global®. The responses from the paper form can then be entered for computer scoring and reporting.

What is the average administration time on the Conners 4?

The following are the average administration times:

Conners 4 Full-Length:

- Self-Report: 15 minutes
- Parent: 15 minutes
- Teacher: 12 minutes

Conners 4–Short:

- Self-Report: 6 minutes
- Parent: 7 minutes
- Teacher: 5 minutes

Conners 4–ADHD Index:

- Self-Report: 1.5 minutes
- Parent: 1.5 minutes
- Teacher: 1 minute

How can I use paper administration with Conners 4 if it's now fully digital? I need to send forms to certain students who do not have access to a computer.

Paper administration is available with Conners 4. You will still have the ability to print paper forms to give to the student, parents, or teachers.

The form can then be returned to the practitioner to enter into Q-global. You can print or send out as many forms as required, and you will not be charged for the use until it is entered, scored, and a report is generated.

When administering the Conners 3, the formatting of the paper form causes difficulty keeping responses on the same line. The small font and wide space between items and response options usually have students confused, and they sometimes mark the wrong line or skip lines. Was this issue addressed in Conners 4?

Yes, the paper layout has been re-designed, which should alleviate this concern.

Can you download the report as a Word document in Conners 4?

Yes, the report will be available for download as both a PDF and a Word document.

Availability

When will Conners 4 be offered worldwide with translations?

Pearson will initially offer Conners 4 in English, Spanish, and French Canadian.

Will Conners 4 be available in Spanish?

Yes, Conners 4 will be released with US Spanish language options for all forms except Teacher.

Will additional report options be available?

Yes, a release date for the additional reports formats will be announced at a later date.

Product information

What is new or different with the Conners 4 compared to the Conners 3?

Many exciting changes and new features are included within Conners 4, including improvements to functionality, accessibility, and content updates. For more information, you can reference a complete Conners 3rd Edition and Conners 4th Edition [comparison guide](#).

Will the USB scoring key still be supported?

Conners 4 is fully digital and no longer requires a USB scoring key. Scoring is entirely digital, and you can administer, score, and generate a report from anywhere with an internet connection.

Will there be long forms and short forms available?

Yes, Conners 4 provides full length, short, and ADHD index stand-alone forms.

Is the age range still 6-18?

Yes. The age range of the Conners 4 continues to be 6-18 years for Parent and Teacher forms and 8-18 years for youth self-report.

Do I need to purchase a manual for Conners 4?

A digital manual is included with Conners 4 for free. All Conners 4 users will get access to the manual on Q-global.
